**FOR IMMEDIATE RELEASE**

**INVESTING IN MICHIGAN'S FUTURE ENTREPRENEURS**

POS Systems Group of Ferndale, MI is donating \$1,000 to one lucky Michigan high school this Sunday, March 14, at the Michigan DECA Conference held at the Hyatt Regency Dearborn.

Brad Schmidt of Michigan DECA notes that "The State Career Development Conference is one of the few opportunities where high school marketing students come together to prepare for their careers." Future business leaders compete for the chance to represent Michigan at DECA's International Career Development Conference in Louisville, KY this April. The \$1,000 scholarship will be used to underwrite travel costs of the International conference.

POS Systems Group has trained 136 school stores in Michigan in point of sale solutions. POS also offers accounting, label design, inventory management, and customer marketing capabilities.

POS Systems Group has POS installations in over 400 school stores nationally. Another \$1,000 scholarship for the International conference will be awarded to an additional school in a random drawing to be held on March 21.
